Business Intelligence Engineer I

Bellevue, Washington, United States

Technology   Regular

Full time   8682

Our Opportunity:

We are looking for a Business Intelligence Engineer I at our facility in Bellevue, Washington to closely examine customer traffic, browsing and purchase behaviors by developing the deepest understanding of business metrics.

What You'll Do:

- Conduct deep dive analysis on customer pathing and other website and mobile app interactions to optimize site experience.
- Use available tools and data (Snowflake, Python, Google Analytics, Tableau, etc.) to construct, maintain, distribute and enhance dashboards and reporting.
- Ensure analytics implementation provides crystal-clear visibility into the impact and the value of new features and functionality.
- Build insights and create recommendations via written and verbal communications that can be understood by a broad audience.
- Establish & maintain strong relationships with key stakeholders.
- Recommend and help run and analyze A/B tests on new features/content.

What You'll Need:

- Bachelor's degree in Information Management, Engineering, or related field and 2 years of experience.
- Will accept Master's and 0 years of experience.
- Experience or coursework must include: working with data visualization tools;
- Perform in-depth analysis, synthesize results, report and present strategies and make recommendations to business and technical audiences;
- Web analytics data collection;
- Define requirements, implement code & validate data;
- Tableau; and
- Writing and tuning SQL queries and knowledge of relational databases.
- The position is eligible for the Employee Referral Program.

The specific salary offered to a candidate may be influenced by a variety of factors including but not limited to the candidate's relevant experience, education, and work location. In addition, this position is eligible for 401k and a new hire and annual equity grant.

We offer different types of insurance, such as medical/Rx, vision, dental, life, disability, hospital indemnity, critical illness, and accident. We offer parent leave, family services benefits, backup dependent care, flexible spending accounts, telemedicine, pet adoption reimbursement, employee assistance program, and many discounts including 10% off pet insurance and 20% off at Chewy.com.

Salaried-exempt team members have unlimited PTO, subject to manager approval. Team members will receive six paid holidays per year. Team members may be eligible for paid sick and family leave in compliance with applicable state and local regulations.

Base Salary Range

$118,414—$153,500 USD
